GOLF IN BELEK

Situated on the South coast and with a Mediterranean climate offering 300+ days of sunshine a year, Belek has established itself as a World class golf destination. Since 1994 when the first Golf Club, The National opened, the town has grown and is now home to over 50 hotels and 16 golf courses, as well as other sporting facilities. This includes football pitches, tennis courts and an Olympic size pool, all of which have been built in protected government forestry land.

Great emphasis was placed in maintaining the natural environment and to this day it is common to see many of the natural bird species, red squirrels and tortoises that inhabit the area.

1-TAT GOLF CLUB / BELEK-TURKEY

If you want to enjoy the scenery and natural beauty of the Turkish Riviera as you play golf then the Tat has it all.

The course has been designed and built to maximise the use of its natural environment which includes streams, rivers, lakes and dunes all set against the backdrop of the Taurus Mountains in the distance. The Tat with its three 9's offers players the opportunity of playing in a different style of setting for each 9.

2-NATIONAL GOLF CLUB / BELEK-TURKEY

The National, designed and built in 1994 by ex-Ryder Club player David Feherty, is to this day still recognised as one of the top golf courses in Europe.

The design incorporated many of the challenging aspects David experienced around the World in this career as a golfer. The result is a course where each individual hole is a challenge for golfers of all abilities.

The National has for the last 5 years hosted the Ladies European Tour and more recently the Challenge Tour and Ladies Access Tour.

3-ANTALYA GOLF CLUB / BELEK-TURKEY

Pasha Golf Course

At 5731 metres (just under 6,300 yards) the par 72 Pasha Course would at first glance appear to be quite a gentle stroll in the forest. However with some strategically placed bunkers, tricky dog legs, lakes and undulating greens do not underestimate its degree of difficulty. The course is good test of golf for players at all levels and playing from the tee appropriate to ability will enhance the enjoyment.

PGA Sultan Golf Course

Designed by leading architects European Golf Design in association with design consultant and Senior Tour Professional Davis Jones this par 71 course is 6477 metres (over 7,000 yards). The layout provides a level of sophistication, which tests all golfers to the limit. With a variety of tees to play from, players of all abilities have to make their own decisions based upon the potential for risk and its reward.

In 2012 PGA sultan hosted the World Amateur Team Championship, the Eisenhower Trophy, as well as the Turkish Airlines Match Play Championship, a field which included Tiger Woods, Rory, McIlroy, Justin Rose and Lee Westwood.

4-KAYA EAGLES GOLF CLUB / BELEK-TURKEY

Designed by the well known golf architect David Jones, and affiliated to the Eagle Charity Golf club in Germany, the course offers a wonderful challenge to holiday golfers of all abilities.

The course is beautifully laid out with some lovely shorter par3's and 4's than those found on other courses in Belek, but with some strategically placed bunkers.

There is also an element of risk and reward on the longer holes. So whether you take on that long second shot into the green or lay up short of the water with an easy approach, the decision is yours.

5-CARYA GOLF CLUB / BELEK-TURKEY

While this Championship Golf Course is nestled among the natural Pine forest of the area, the Architects including Peter Thomson, five times winner of The Open, set out to create a heathland course similar to those found in Surrey, England.

This is a first for this area and golfers of all abilities can enjoy playing over and walking alongside the many heather plantations, which are now an integral feature of the course.

Another first not just in Belek but also in Europe is the installation of floodlights on the course meaning twilight is no longer a problem for finishing around.

The Carya will host the Turkish Airlines Open 2016-2018, part of the Finals Series on the Men's Europeans Tour.

6-SUENO GOLF CLUB / BELEK-TURKEY

Designed by PGA Design Consulting two wonderful courses sitting alongside each other with all four 9's returning to the hotel clubhouse, making for a spectacular setting. This has arguably become one of the most photographed views in golf, anywhere in the World.

The Pines course, by far the longer one, is a true championship golf course and the front 9 especially, grabs the player's attention and demands full concentration from the outset.

The dunes course, has easier starting holes, but do not be lulled into a false sense of security. After a gentle opening there are some tricky holes to be mastered. And on the 18th hole watch out for the island green.

Both courses have been designed to create a 'links' type effect without being by the sea.

The Pro Golf Tour (EPD Tour) regularly open their season here.

7-CORNELIA GOLF CLUB BY NICK FALDO / BELEK-TURKEY

The Cornelia Hotels has its own 27-hole golf course, which set new standards in the area as the first designed by a modern day player. The layout allows players to play 3 combinations of 18 holes on either the King, Queen or Prince course all of which are par 72.

In true British style all of the hotels have been named and should give some indication as to what challenges there are or where on the course you are.

As a part of the golf complex there is a full Academy and practice facilities for golfers at all levels and this is under the name, guidance and direction of the World famous golf coach, David Leadbetter.

Guests of the Cornelia Hotels are especially welcomed and both hotels run a free service from the hotel to the golf club.

8-THE MONTGOMERIE MAXX ROYAL GOLF CLUB / BELEK-TURKEY

Designed by Colin Montgomerie, one of Europe's best ever players and 7 times winner of the European Order of Merit, the course has been carefully designed to be played and enjoyed by all golfers whatever their ability.

Montgomerie has used his experience to craft a course which is sympathetic to its natural environment but is capable of hosting World class tournaments. Such was his success in achieving this that 'The Montie' as it is referred to locally, hosted the Turkish Airlines Open 2013-2015, one of the most prestigious tournaments on the men's European Tour.

The Montgomerie Maxx Royal is a full member of the network of golf courses which comes under the umbrella of European Tour Destinations.

9-GLORIA GOLF CLUB / BELEK-TURKEY

Enjoy a challenging round of golf at Gloria Golf club, the biggest golf complex in Turkey with 45 holes. This includes two 18-hole championship courses, 'Old Course', 'New course' and the 9-hole Verde course.

The Old Course is par 72 with some very tight driving holes and a true test of golf.

The New course, also a par 72 is a bit more open, but with 4 big lakes and 67 bunkers the golfer must keep their wits about them.

The Verde Course is a beautiful 9-hole challenge for all golfers including beginners and great course for a quick round.

The Gloria has played host to the Men's European Seniors Tour.

10-ROBINSON GOLF CLUB NOBILLIS / BELEK-TURKEY

Set in the hotel's grounds and separated by a river is the Robinson Golf club Nobilis.

Designed by the architect Dave Thomas the course sits is a part of the natural pine forest alongside the Acisu River, which runs into the Mediterranean Sea.

With Bentgrass greens and Bermuda Grass fairways it is perfect for all golfers.

11-LYKIA LINKS ANTALYA GOLF CLUB / BELEK-TURKEY

With approximately only 250 seaside links golf courses in the World Turkey and Belek can now join this unique group with the Lykia Links.

Famous American links course design architect Perry O. Dye is responsible for making this championship course playable for all levels of golfer and he has included 5 levels of tee to accommodate this.

In true links style and with the absence of trees, players can see the sea from almost any point on the course as it follows the natural terrain alongside the Mediterranean Sea.

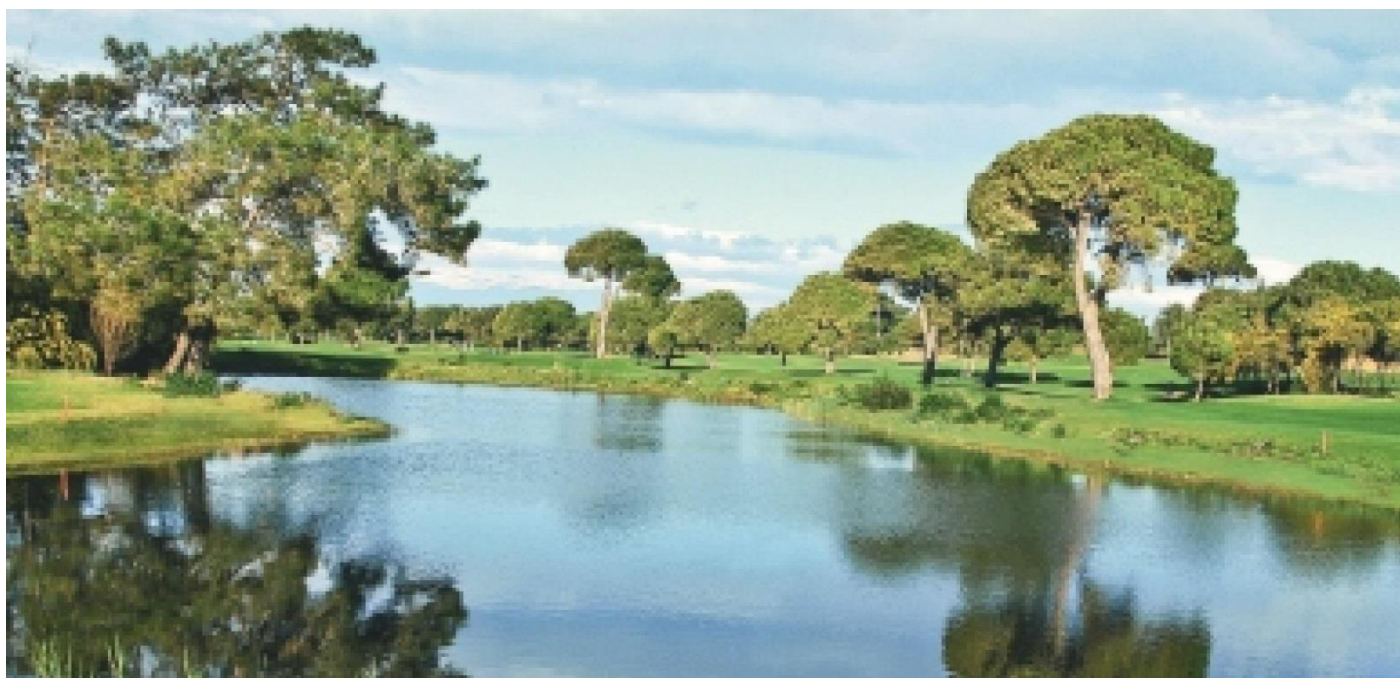

One advantage of playing links golf here in the summer is the cooling sea breeze.

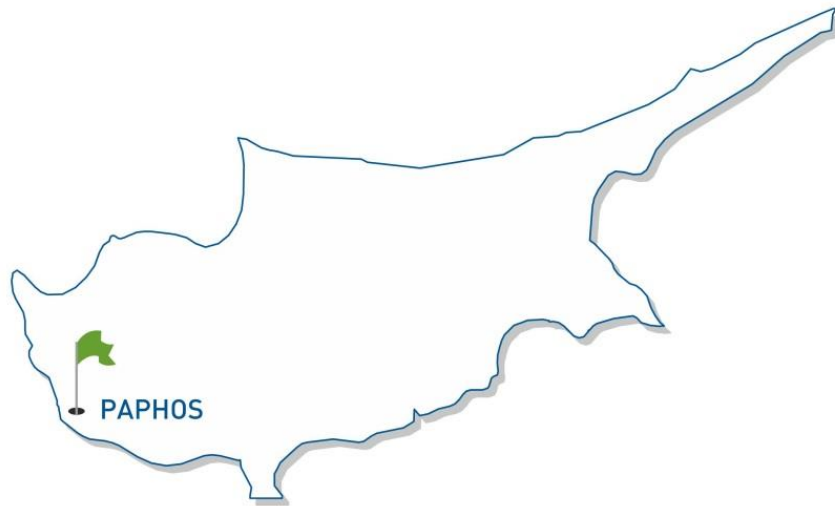

12-TITANIC GOLF CLUB / BELEK-TURKEY

If you want to enjoy the scenery and natural beauty of the Turkish Riviere as you play golf then the Titanic has it all.

The course has been designed and built to maximise the use of its natural environment which includes streams, rivers, lakes and dunes all set against the backdrop of the Taurus Mountains in the distance. The Titanic with its three 9's offers players the opportunity of playing in a different style of setting for each 9.

GOLF IN CYPRUS

Cyprus as a **holiday golf destination** is relatively new and only recently has started to attract a growing number of visitors coming to enjoy year round golf in almost perfect conditions through all four seasons.

By far the best place stay and play is Paphos on the South of the island. With four championship golf courses offering visitors and guests the chance to experience more than one course without having to travel far, this is an ideal introduction for sampling what is very much an up and coming golf destination.

Minthis Hills Golf club built in 1994 and the oldest in Cyprus is now complimented by the spectacular Aphrodite Hills and more recently the Nick Faldo designed Elea Estate. And a short drive away is the Secret Valley Golf Club. All four courses are designed and built to challenge golfers at all levels and to enhance the pleasure, all of them have been naturally built into the landscape offering some dramatic scenery and views while playing. A few other courses are spread throughout the island and even more are planned, but this is an early day's adventure into what is a new golfing territory.

GOLF CLUBS

- 1-The Aphrodite Hills Golf Club
- 2-Mintis Hilss Golf Club
- 3-Elea Estate Golf Club

1-THE APHRODITE HILLS GOLF COURSE / PAPHOS-CYPRUS

Offering golf all year around the Aphrodite Hills Golf Resort is home to a magnificent 18-hole championship golf course, dedicated 3-hole Golf Academy and magnificent Clubhouse, to suit golfers of all standards and ages. The golf club also offers the very best of facilities for practice, learning or improving under the guidance of fully qualified PGA Professionals. There is also a 3-hole Academy course ideal for those taking their first steps on to a golf course itself. Buggies are included with every round on the championship course giving golfers the opportunity to absorb the stunning natural beauty of the surrounding area whilst making their way around this extensive and dramatic layout.

2-MINTIS HILLS GOLF CLUB / PAPHOS-CYPRUS

Set in the historical grounds of a 12th century monastery Minthis Hills is the oldest Golf course in cyprus.

Originally designed by Donald steel who was famous for trying to direct play to all points on the compass, the course was recently updated and further improved by Tom Mackenzie and Martin ebert, who have worked on four out of nine of the courses of the British Open. Minthis Hills, as well as being a resort course is also a Members Club with a number of open tournaments being played through the whole year including the summer where at an elevation of 550 meters there is a cooling breeze off the Troodos Mountains.

With its own Academy and full PGA qualified Head Professional the club offers lessons at all levels. Of special mention is the 5-day package for beginners wishing to try golf for the first time and by the end of which participants can qualify for a 'Certificate of Competence'.

3-ELEA ESTATE GOLF CLUB / PAPHOS-CYPRUS

Situated at the heart of the prestigious Elea Estate in Cyprus, Elea Estate Golf Club offers World-class golf in a stunning setting.

The Par 71 course, designed by the legendary Sir Nick Faldo, has been created to challenge golfers of every level and incorporates natural features with stunning views of the Mediterranean. Skill, strategy, precision – and maybe a little luck – are needed if you're to be victorious here but however you play or score you are promised a pleasantly memorable experience. The Academy with all the latest state of the art facilities and headed by two PGA Professionals offers the opportunity for learning and improving at all levels. As well as a driving range with target greens and bunkers there is a landscaped short game area and putting green.

SPORTS

To play something special, go somewhere special.

With its excellent sports facilities Belek has become a major destination for all kinds of international sports tournaments.

With its Mediterranean climate the area is also home to many Professional sportspeople and teams for winter training camps.

The training facilities in the area are recognised as being second to none.

Go Travel Turkey has played its part in arranging and organising many of these and would be an excellent partner for you and your organisation.

FOOTBALL

Many famous and not so famous clubs to Belek from December to March for winter breaks and training camps. The area has many Professional standard football pitches, some of which are floodlit.

Antalya and especially Lara, Belek has become home to '000's of Football clubs from all over Europe and more recently India, Australia, France, Germany, Spain, Italy, USA, England, Holland, Romania, Tunus, UAE, bulgaria, Slovenia, Russia, Greece who use the area as a bas efor winter and pre-season training.

Many of the hotels in the area have their own training facilities and most importantly full size quality football pitches. All of these are maintained to a level matching the very best of those played on week in and week out in the Premier League, Bundesliga, Serie A and Super Lig.

Especially in winter during winter close down and 'International weeks' it is very common to see famous teams and famous faces training and playing practice matches on many of the pitches in and around Belek. You may even bump into some of them on the golf course.

Such is the variety of facilities in the area, the same luxury is very affordable to all levels of football clubs to train, play and bond like their Professional and famous colleagues.

TENNIS

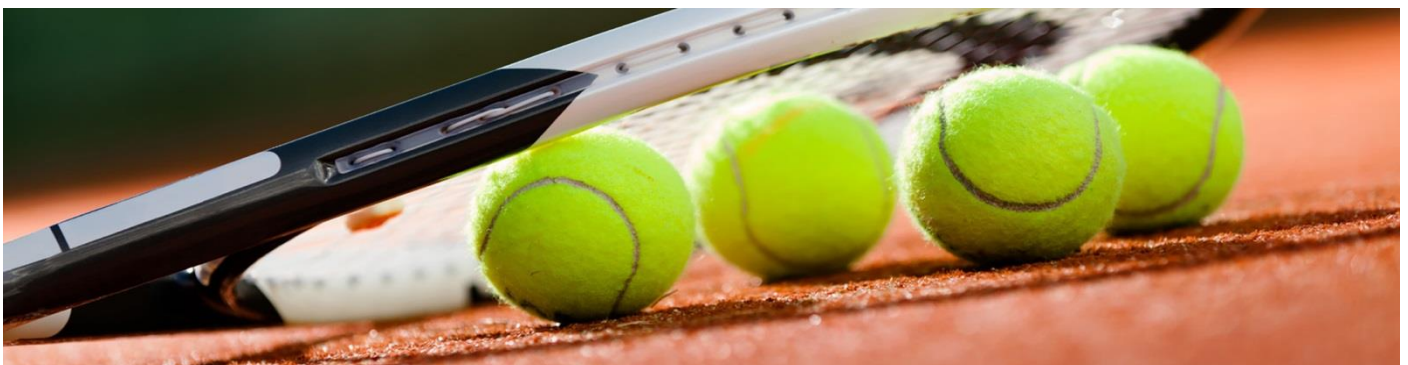

While most of the hotels in Belek have one or two tennis courts, others have specialised in the sport and offer a number of courts and facilities for practice, some of which are floodlit.

While Belek is best known for its golf courses, another sport which is becoming just as popular is Tennis. Almost all of the hotels in the area have at least one court, and quite a few others have specialised in this market, offering within their grounds, a large number of courts, some of which are floodlit.

There are also a number of amateur tournaments at National level, which are organised and run during the year.

Throughout the whole year the courts are in regular use for coaching, practice, and tournaments and it is a rare week when some national representative group is not in town practicing or competing.

Belek also plays host to a tournament on the ITF Tennis Pro Circuit and its Futures Category.

SWIMMING

With a number of full size heated Olympic swimming pools in the area many teams and individuals are using the area as a training base in preparation for competitions. With a shortage of private swimming facilities never mind full sized Olympic swimming pools, suitable training for competitive swimming is becoming harder to find. And all too often times are restricted to accommodate the needs of the casual swimmer.

In Belek there are a number of full sized Olympic swimming pools, which are heated. Some are indoors and others outdoors, meaning training is possible all year around.

The pools are professionally set up and include the small diving boards for entering the water and the lanes can be segregated, the same as in competition.

This is a relatively new market but growing sport for Belek, as the hotels will work with each group in defining a training programme, taking into account the times and needs of the swimmers and closing it off to the public.

Belek is now the first choice for many clubs and countries as their overseas dedicated swim training base. This includes the German swimming team.

GOLF

With 16 golf courses, **Belek** is the heartland of **Golf** in **Turkey**. All of these are designed and maintained to world class standard. This includes a **Links course (Lykia)** and **Europe's first floodlit course (Carya)**.

Go Travel Turkey can arrange tee times and lessons, as well as hire clubs if required at any one of these. We can also arrange suitable partners to play with, including a **PGA Golf** professional.

GENERAL SPORTS FACILITY

In 2015 Gloria Sports a new Olympic arena and training facility will open in the heart of Belek. This includes an Olympic size swimming pool, running track as well as other indoor and outdoor facilities. The complex will also house a state of the art sports science and physio centre.

This is a state of the art (all sports complex) with some of the most sophisticated and modern training facilities to be found anywhere in the World.

Being able to cater for something like 50 indoor and outdoor sports including track and field events of athletics, swimming and diving, boxing and weightlifting, tennis and football, gymnastics and basketball, the Gloria Sports Arena has become the training base for many athletes preparing for the Olympics in Rio in 2016, including the German Olympic Team.

With the science of sport's training, the needs of a special diet and the recovery programme of injured athletes, almost everything is available and affordable to the modern amateur and Professional athlete.

The city is located at a distance of 290 km (180 mi) from the capital Ankara, and is within the historical region of Cappadocia. Nevşehir has a warm dry-summer continental climate (Köppen climate classification Dsb), with cold and snowy winters and warm and dry summers. Rainfall occurs mostly during late spring.
